

Camp Rotary

Scout Iron Man Challenge

The “Camp Rotary Scout Iron Man Challenge” is designed for those Scouts 14 years of age and older, who are further along in their Long Term Camping Experience. It is our intent to assist these Older Scouts, by giving them these opportunities as well as the environment, in which to further develop their skills as an ever maturing and growing young man. This challenge is a test of body, mind, and spirit.

During his stay at camp, we will provide Older Scout _____, the opportunity to complete a series of challenges as well as an enhanced experience in Outdoor Scouting. He is to select among the following tasks, 9 items that he will achieve during his week in camp. The achievement of these 9 items will allow the Older Scout an opportunity to broaden his development, while giving back to the program for all that he has achieved in his own life.

As an item is selected and achieved, it is to be attested to being achieved by a staff member of the camp. The scout will receive a special award from the Camp Director, Program Director, and Commissioner at the end of the week.

1. Take part in the Mile Swim. _____
2. Take part in Project COPE. _____
